

Scenario worksheet: External Contributors

A mid-sized second-year cohort is being developed and the tutor would like to invite a guest speaker to contribute a lecture. She would like to capture it for her students to review, and is considering using the recording as a resource for future years. While it is likely the guest speaker can attend in person, he is based overseas and there is a chance he may have to give the lecture remotely. The tutor would like to incorporate more guest speakers if this instance goes well.

Resource Summary

Topic: Guest lecturers

Authors: Amanda Hardy, Juliet Hinrichsen

Institution: Coventry University

Target audience: Staff Developers

Keywords: scenario; external; guest lecturers; issues; distance

Date produced: 1 September 2010

Comment:

Things to Consider

What are the main issues?

Who do they impact?

How might the issues be addressed?
