Flying Squad
Weekdays 9:00am - 5.00pm

The e-Learning Unit’s Flying Squad can help both staff and students with all aspects of Moodle.

Staff
As well as providing telephone and online support the Flying Squad will come out to your office and work side by side with you to help you with Moodle and any other CUOnline tools.

Contact the Flying Squad:
Telephone 024 7688 7673
Email flying.squad@coventry.ac.uk
Skype cuonline.flying.squad

Online information
A Moodle network consists of a central hub server that deals with all logins and several remote servers, one per faculty.

Log in to Moodle at
http://moodle.coventry.ac.uk

http://cuba.coventry.ac.uk/moodlehelp

Workshops and Moodle Communications at
http://cuba.coventry.ac.uk/moodlenew

Moodle’s community site at
http://www.moodle.org
Moodle stands for Modular Object-Oriented Dynamic Learning Environment. To Moodle also describes the process of lazily meandering through something, doing things as it occurs to you to do them, an enjoyable tinkering that often leads to insight and creativity.

Moodle is a Virtual Learning Environment (VLE) designed to help educators create online courses and manage learner outcomes.

Students need only a web browser (e.g. IE, Firefox, Safari) to participate in a Moodle course.

Moodle is Open Source software, which means users are free to download it, use it, modify it and distribute it under the terms of the GNU General Public License.

The Australian developer of Moodle (Martin Dougiamas) is both an educator and computer scientist.

Once you are thinking about all these issues it can help you realize how each participant in a course can be a teacher as well as a learner.

The above text was edited from Moodle For Teachers, Trainers And Administrators, Revised January 2005 by Bryan C. Williams, Matt Riordan and Martin Dougiamas.
